ADMINISTRATION'S MESSAGE

It is an honour and a privilege to be the Principal of DHIPS, the school that stands for excellence and continuously sets the highest standards, the school that is an alma mater which all alumni look back to with fond memories, the school that has given many distinguished personalities and leaders in diverse fields. The importance of education in the life of an individual cannot be overstated. For me, Education does not mean providing answers. It means equipping the pupil with the means to find the answers for himself and within himself. Education empowers students to discover themselves – who they are as people. Within each student is a doctor, an engineer, a teacher, a social activist, a sports person, an environmentalist, a poet, an author or an economist. The teachers support them in channelizing resources vis-à-vis their dreams thus, sustainably generating civilized and productive human capital for serving our motherland and Muslim Ummah. Over the years in this school, I have witnessed in our students an unparalleled knowledge base, a vibrant dynamism, an acute consciousness about the world around them, a focused ambition and a sustained commitment. I am also fortunate to have an experienced and committed team, which has brought the school to its present stature. I, along with my team of silent workers and dedicated faculty, intend to build on this strong foundation and raise the standards in all spheres, to the zenith. I assure you that my doors will always be open to the students and their parents for any suggestion or guidance.
